

The Guitar Man

Gary Clark Jr.

Baby it's candle light by choice now
Look how far we made it, yeah
Talks 'bout traveling 'round the globe now
We can hardly wait, yeah

But baby you ain't got fear of nothing
You live always in your time again (time again)
But baby we've been working on something
And I will always love you till the end

So whether I'm standing on the corner with my heart in my hand
Or everybody is listening to the guitar man
Whether I'm standing on the corner with my heart in my hand
Or everybody is listening to the guitar man
I can't do it without you, without you
Baby, yeah, yeah

Stamps in my good book now
Baby, we've made it, yeah
I'm sorry I can't take you now
I know how much you hate it

But baby you ain't got fear of nothing (you ain't got fear of nothing
)
'Cause I'm drinking with my boys again
But baby we've been working on something
And I will always love you till the end

So whether I'm standing on the corner with my heart in my hand, now
Or everybody is listening to the guitar man (guitar man)
Whether I'm standing on the corner with my heart in my hand, baby, ye
ah
Or everybody is listening to the guitar man (guitar man)
I can't do it without you (without you), I can't do it without you
Baby, yeah, yeah

Whether I'm standing on the corner with my heart in my hand (my heart
baby), baby yeah
Or everybody is listening to the guitar man
Whether I'm standing on the corner with my heart in my hand, baby, ye
ah
Or everybody is listening to the guitar man (guitar man)
I can't do it without you, can't do it without you
Baby, yeah

Standing on the corner with my heart in my hand
In my hand
Standing on the corner with my heart in my hand baby
And everybody is listening to the guitar man
Without you, can't do it without you, baby yeah
Standing on the corner with my heart in my hand
Everybody is listening to the guitar man, now

Standing on the corner with my heart in my hand
