Travis County

Gary Clark Jr.

Travis County took my picture
But no, I didn't smile
They told me I was gonna be here
For a pretty long while

One day I was walking down the street when I should've been walking down the hall Heard a voice calling out, saying "Ooh, where you going, y'all?"

Now before I could've gathered my thoughts I turned around and I saw the cops I pointed arms up right when He told me I better stop

Oooh, oooh

They put my hands in cuffs
Oh boy, they even locked me up
When I thought that it was all a bluff
Till they started taking my stuff

Now I'm sittin' 'round in my cell Just a looking at the wall I didn't even get to make My one phone call

After I was just sittin' 'round You know I started getting down When they let me out All I could do is scream and shout
