

# Life Gets In The Way

Gary Go

We talk, talk, talk, close but not the same  
Putting back the pieces that remain  
You said it would be easy but  
I can feel the strain  
Does everything mean nothing?

I'm back on the scales, weighing it up 'Cause  
I don't wanna be the same anymore  
Gotta find what I'm here for  
But it's so hard to change  
When life gets in the way, yeah

We crash, crash, crash, with nothing left to burn  
We try to turn the tables we have turned  
Covering the cracks won't make them disappear  
I've lost count of the times that we've been here  
What's the way?

Name the price I must pay 'Cause  
I don't wanna be the same anymore  
Gotta find what I'm here for  
But it's so hard to change  
When life gets in the way, yeah

Seems everyone around me has moved on  
Where's the spark when the spark has gone?  
It's so hard to change  
When life gets in the way

Tell me what it takes to get through  
Is everyone better as two?  
If life is what you choose  
I choose to leave this all behind  
All behind for you I'll leave it all behind for you, no

I don't wanna be the same anymore  
Gotta find what I'm here for  
But it's so hard to change  
When life gets in the way, oh, oh

Seems everyone around me has moved on  
Where's the spark when the spark has gone?  
Oh, it's so hard to change  
When life gets in the way, the way
