

Through the Walls

Gary Go

Nobody has anything intelligent to say
I turn the radio off and become the DJ
Everyone is playing games that I don't wanna play
I close my eyes and take my mind to a better place

I know I'm happy in a parallel life
Where it sounds like you're having a pretty good time

I can hear it through the walls
Through the walls I can hear it
You know I never really thought
That was my kind of music
But the drum is hitting hard
Like the way I'm feeling
I can hear it through the walls
And I started believing
Believing

We never said hello, I've never seen you in the hall
I guess you're pretty pretty as you're partying 'til dawn
Maybe I should ring your bell or we will never know
For now I close my eyes and dream about you through the walls

My pillow baby, won't stop the funk dance
I'm going crazy, (?) like the walls

I can hear it through the walls
Through the walls I can hear it
You know I never really thought
That was my kind of music
And the melody is hot
Like the way I'm feeling
I can hear it through the walls
And I started believing
Believing
Believing
Believing
Believing

I know you can hear me
I wish you could see me
There's something between us
(?)

Knock knock knock on, invite me in
Keep keep keep on partying
Can't get my sleep, won't surrender it
Comin' comin', I'm comin' comin'

I can hear it through the walls
Through the walls I can hear it
T-t-t-turn the TV off
It's a screen with lyrics
And the melody is hot
Like the way I'm feeling
I can hear it through the walls
I'm comin', I'm comin'

I can hear it through the walls
Through the walls I can hear it
You know I never really thought
That was my kind of music
And the melody is hot
Like the way I'm feeling
I can hear it through the walls
And I started believing
