

# Get Down Like That

Gary LeVox

Yeah, we talk with a drawl, yeah we sound like that  
Friday night lights, got a crowd like that  
Hand out the window, ride around like that  
Thirty-five inches from the ground like that  
Kenwoods bumping like they 'bout to blow  
Singing them songs that you oughta know  
Brown bag special from a Texaco  
Whatcha mean you never been down a gravel road?

Well hey, if you're with me  
If you wanna take it out of the city  
Get a little bit more nitty gritty  
Do some midnight fishing and some moonlight kissing  
Come on, let's ride  
Dance on the land of the milk and honey  
Down here we do it up right  
If you wanna get to slipping out like that  
Burned away your life where you 'bout like that  
Ain't your fault that you ain't from a town like that  
So let me show you how to get down like that  
Oh, let me show you how to get down, y'all

Well baby when the sun goes down like that  
We'll turn the country gold up loud like that  
And if you wanna get unwound like that  
I got a little something but it might bite back  
Like oh, girl, better watch yourself  
No this ain't the kinda liquor that comes off the shelf  
Take it slow, baby, one sip at a time  
Tastes good but this ain't your mama apple pie

Hey, if you're with me  
If you wanna take it out of the city  
Get a little bit more nitty gritty  
Do some midnight fishing and some moonlight kissing  
Come on, let's ride  
Dance on the land of the milk and honey  
Down here we do it up right  
If you wanna get to slipping out like that  
Burned away your life where you 'bout like that  
Ain't your fault that you ain't from a town like that  
So let me show you how to get down like that

We pour a little Coke on our Crown like that  
We funk it up a little Bruno Mars like that  
Put it all together, make it sound like that, oh

Well hey, if you're with me  
If you wanna take it out of the city  
Get a little bit more nitty gritty  
Do some midnight fishing and some moonlight kissing  
Come on, let's ride  
Dance on the land of the milk and honey  
Down here we do it up right  
If you wanna get to slipping out like that  
Burned away your life where you 'bout like that  
Ain't your fault that you ain't from a town like that

So let me show you how to get down like that

We finna show you how to get down like that
