

She Stayed Anyway

Gary LeVox

She knows all about these old boots
And every broken mile, they've pounded
Every bottle I've ever climbed into
No, I'd rather not talk about it
She knows, she knows she could've done better

She stayed anyway to calm this heart to love
She should run away knowing where I come from
She might burn too fast [?]
Nobody knows me like she does
But she stayed anyway

She's met anyone I've been around with
Heard all of my war stories
She's seems my speed track town?
In all its glory

She stayed anyway to calm this heart to love
She should run away knowing where I come from
She might burn too fast [?]
Nobody knows me like she does
Yeah, she stayed anyway
Yeah, she stayed anyway

Yeah, she knows, she knows she could've done better

But she stayed anyway, oh...
Yeah, she stayed anyway
She should've run away

She might burn too fast [?]
Nobody knows me like she does
She stayed anyway
She stayed anyway
Yeah, she knows, she knows she could've done better
Yeah, she stayed anyway
