

# The Distance

Gary LeVox

There's a beauty in the struggle  
There's help when there's trouble  
There's a God that's in your rubble  
That'll go and pick you up  
There's a grace among the sin  
There's a fight that you will win  
There's a life at the end  
But only through Jesus

I know you wanna quit and the enemy says to give in  
But I promise with God you can

Go the distance, accept the challenge  
For every battle that's before you  
Hope's not lost, it's found on a cross  
And all the strength to push on through  
You can make it up the mountain  
You can throw away your doubting  
Live bold and fearless  
'Cause with God, you can go the distance

The road of life we travel  
Has speed bumps, cracks, and detours  
When you go left of center  
Just look up and there's your sign

I know you wanna quit and the enemy says to give in  
But I promise with God you can

Go the distance, accept the challenge  
For every battle that's before you  
Hope's not lost, it's found on a cross  
And all the strength to push on through  
You can make it up the mountain  
You can throw away your doubting  
Live bold and fearless  
'Cause with God, you can go the distance

Oh, don't give up, stand on your faith  
Finish the race and break the tape

And go the distance, accept the challenge  
For every battle that's before you  
Hope's not lost, it's found on a cross  
And all the strength to push on through  
You can make it up the mountain  
You can throw away your doubting  
Live bold and fearless  
'Cause with God, you can go the distance

You can go the distance
