

# Bring The Whole Family

Gary Lewis & The Playboys

Your empty pockets tell you that your day's been badly burned  
And the bright new light and tables don't show much you haven't  
learned

The pocket's getting smaller, you're not shooting like you should

But if this is where you spend your life, you better make it good

Two on the five, five on the nine

Give you all the breaks

Two on the five, five on the nine

You got what it takes

A good excuse for losing's worth as much as you can win

And there's not much going down except the game that you are in

But Uncle Billy's dealing and if you can hold your own

You might just fill that straight, boy, you might take something home

I play splits in high-low game

Aces go both ways

Remember all those marks on the cards

You know how it pays

If I could shoot just like the rain

Just like this rain

Just rain, just rain

I'd go down to the pool room

Two on the five, five on the nine

Give you all the breaks

Two on the five, five on the nine

You got what it takes

I play splits in high-low game

Aces go both ways

Remember all those marks on the cards

You know how it pays

Two on the five, five on the nine

Give you all the breaks

Two on the five, five on the nine

You got what it takes
