

Double Good Feeling

Gary Lewis & The Playboys

Well, it's a double good feeling
Just to know someone is feeling
The same kind of love for me, yeah
And it's a double good morning
Just to know someone is longing
To see nobody else but me, yeah

When love's with me, yeah
So good to be there
You wouldn't believe it
You'd have to see it
Then you'll know how much I love you
Do you know how much I love you?
Well, it's a double good living
Just to know someone is giving
Their own kind of love to me

When love's with me, yeah
So good to be there
You wouldn't believe it
You'd have to see it
Then you'll know how much I love you
Do you know how much I love you?

It's a double good living
Just to know someone is giving
Their own kind of love to me

Well, it's a double good feeling
It's a double good feeling...
