Gary Lewis & The Playboys

Holding you to me
For all the world to see
That's how I kept wishing it could be

But you found someone new
Someone who loves you, too
And I just can't help wishing it was me

I always wanted you to know
I always meant to let it to show
Now, I say these things to you
Just so, you'll know I love you so

I wonder what he'll say
When he finds out some day
That you don't really mean the things you say

I'll know how he'll feel
When he finds your love's not real
I'll bet he'll be wishing he was free, free, free
