

Hayride

Gary Lewis & The Playboys

My mama said we love it
Something they did long ago
Never could get enough of it
We'd grab a wagon and go, go, go

And take a hayride, meet at the park
We're going leave after dark
You're gonna love it I know
Hayride, lay by my side
While we're taking a ride
We're making love in the hay

My mama said we love it
Something they did long ago
Never could get enough of it
Hey, chuck the horses and go, go, go

And take a hayride, meet at the park
We're going leave after dark
You're gonna love it I know
Hayride, lay by my side
While we're taking a ride
We're making love in the hay

Hey, Betty Ann what you say now?
I gotta see you tonight
Play hide-and-seek in the hay, girl
Can't wait to hold you tight

And take a hayride, meet at the park
We're going leave after dark
You're gonna love it I know
Hayride, lay by my side
While we're taking a ride
We're making love in the hay

Hayride, meet at the park
We're going leave after dark
You're gonna love it I know
Hayride, lay by my side
While we're taking a ride
We're making love in the hay
