

# How Can I Thank You

Gary Lewis & The Playboys

We need to get together, have a conversation  
I just wanna show you my appreciation  
For the sweet things you brought into my life  
You're my reason for livin', my reason for lovin'

How can I thank you, baby?  
You're so good to me  
How can I thank you?

And I just wanna tell you there's Heaven in your eyes, girl  
Shinin' all around me, makin' such a nice world  
You created a paradise it seems, you're a dream  
I'm believin' that I'm never leavin'

How can I thank you, baby?  
You're so good to me  
How can I thank you?

I think about the lonely nights and all the time I spent without you  
And then you came into my life, and right away I fell for you  
It's simple when two people know just when they want to go together  
There never was a moment that I ever wondered whether you were mine  
You let me know it all the time

I know we've got a future, we worked it out together  
Ain't no doubt about it, gonna love you, girl, forever  
You have rearranged my life in every way  
I've got so much to tell you but all I can say is

"God knows, I thank you, baby  
You're so good to me  
How can I thank you?"

How can I thank you?  
How can I thank you?  
How can I thank you?
