

Let's Be More Than Friends

Gary Lewis & The Playboys

From the very day I met you, it was love at first glance
So I planned & schemed, prayed & dreamed for just one little chance

Well, today my wish came true
& I find myself alone with you
Oh baby, let's be more than friends tonight

I remember people tell me it was just a waste of time
That a guy like me could never win a girl that was so fine
& I said they'd change their song

But it's up to you to prove them wrong
Baby, let's be more than friends tonight
Let's be more than friends tonight

& I said they'd change their song
But it's up to you to prove them wrong
Baby, let's be more than friends tonight

(repeat & fade):

Let's be more than friends ton
