

New In Town

Gary Lewis & The Playboys

It ain't easy when you're new in town
Don't know where the kids all hang around
Pretty girls go walkin' by
Arm in arm with their lucky guy
Makes you almost wanna cry
When you're new in town

I just walk around most of the day
Watch the different crowds go on their way
Then, I saw you all alone
Wish that I could take you home
It's that way when you're not known
And you're new in town

So don't think I'm being impolite
When I ask to be with you tonight
I need someone just like you
I don't know just what we'll do
Gee, it's lonely when you're new
When you're new in town
When you're new in town
