

Noise Noise

Gary Numan

What's it to you
If I feel now
Just a face in the wall
Crawling out of the ground
Now look at me
You cry
Like a leaf in the fall
I fly in the sky, don't you?

What's it to you
This noise noise
Like a plaque on the wall
One of these days
I'll just leave
(What's it to you?)
As boys drown
You feel like young gods
You know
All young gods must fade
(What's it to you?)

What's it to you
Going down boys
Like a screw in the wall
My lovers never leave in love
Play war like marines
Just noise noise
Just roar roar
One of these days

(What's it to you?)
