

## Body Shop

Gary Stewart

Here they are coming  
Strolling down the street  
Looking like a fiction walking on two feet  
Tossing their hair, batting their eyes  
All the wrecks she's causing  
I've made up my mind

The girls are lonely  
Body shop  
After seeing what she's got  
It's so hard to defeat the curves  
I can hardly put it into words  
The girls are lonely  
Body shop  
Ain't no doubt that I'll be there a lot  
I get an overhaul from bottom to top  
That girl on the body shop

Slammed on the brakes  
Stuck it in reverse  
Stepped on the gas, ran over the curb  
Roll down the window  
There she stood  
Lord, woman you sure look good

The girls are lonely  
Body shop  
After seeing what she's got  
It's so hard to defeat the curves  
I can hardly put it into words  
The girls are lonely  
Body shop  
Ain't no doubt that I'll be there a lot  
I get an overhaul from bottom to top  
That girl on the body shop
