

Ghost Train

Gary Stewart

Wonder where we're gonna land tomorrow
Wonder where we're gonna play tonight
Living the life I'm singing about
I'm a man of the song and a man of the night

And everybody warns me that I've gone crazy
Time's beginning to show
Ain't gonna sink no ships I'm singing about
Songs everybody knows

Like gypsies on the run
In the night then gone on down the road
To the next town and the next show
Ain't it just like them songs of brother Duane
Jimmy's blues, songs from the king ring out each night
From the ghost train
Sing 'em out sounds like she wants to cry
It's a long hard ride when your tickets fade
It's a downhill slide on the ghost train

Don't know where we're gonna land tonight
Gonna sink those ships we're singing about
Lovin' until dawn light

And everybody warns me that I've gone crazy
Time's beginning to show
Ain't gonna sink no ships I'm singing about
Songs everybody knows
