

# I Had to Get Drunk Last Night

Gary Stewart

I had to get drunk last night  
I couldn't lay down without a fight  
I had to get drunk last night  
When I should have been sleeping with you  
Now I'm the kind of man  
That needs a gentle hand to hold on  
When I get on that crazy cloud of mine  
When I first looked into your eyes  
The story of my life flew by  
And every page was written in your hand  
From 'I love you' to 'Baby it's the end'  
I know that fools are born they are made  
And drunken hearted lovers all get saved

I had to get drunk last night...  
[ guitar ]  
Now I ain't never been too good  
At doing the things I know I should  
And I know that I should make myself go home  
But I drank to a memory  
What never was and will never be  
And I don't feel no changes coming on  
When I'm drinking I don't notice that you're gone  
Now I know that fools are born they are made  
But you have made the biggest fool today  
I had to get drunk last night...
