

It's True

Gary Stewart

It's true everything I've been hearing about you
Word's all over town, my baby let me down
And there's nothing I can do
It's no lie
I didn't mean to take you by surprise
But the song for myself
You were there with someone else
And Lord I broke down and cried
It's no lie, it's true

Oh it's a shame, but it's true
We went for us to me and you

Oh but honey I'm still hung up on you
It's such a shame who's to blame
Oh baby, it's true

And it's so sad to say goodbye to all we ever had
But you'll never let me know
How much you wanted to go
And I never hurt so bad, it's sad
But it's true

Oh it's a shame, but it's true...
