

Roarin'

Gary Stewart

Well, the bartender Max had the stacks to fill it all
My body's kinda shaking but my motor's running strong
I talk too fast and roll a big grin
That old yeller starts to kicking in

Hey, now I'm roaring
Get them guitar's going
When the wild side of me starts showing
You better get out of my way
Cause I'm roarin'

I'm living in the fast lane
It's really had it's ups and downs
Living in this state can really turn your head around
It's been 72 hours since I had any sleep
My eyes are wide open but I'm dead on my feet

Hey, I'm roaring
Get them guitar's going
When the wild side of me starts showing
You better get out of my way
Cause I'm roarin'

I had one too many and I ain't really feeling no pain
When I wake up in the morning I want all your rain
Well, if you want to party we can paint the town
If you want to love me baby let's get down

Hey, I'm roaring
Get them guitar's going
When the wild side of me starts showing
You better get out of my way
Cause I'm roarin'
