

The Same Man

Gary Stewart

I know you have an image in your mind
Of a man you've always hoped to find
The one to fill your life with lovin' times
And I hope it's mine
And I know there are many things you need
More than just my company
And maybe in your fantasies you see
Someone you think I can be

Your heroes seen upon the movie screen
May be the man who loves you in your dreams
And as I lie here beside you
Through the years I hope you'll find
That the man you're making love to
Is the same man you make love to in your mind

Tomorrow may demand a lot from you
And I'll be there to do what I can do
Then if you need something more to see your though
I'll try to be there too

Your heroes seen upon the movie screen
May be the man who loves you in your dreams
And as I lie here beside you
Through the years I hope you'll find
That the man you're making love to
Is the same man you make love to in your mind
