

Seven Day Weekend

Gary "U.S." Bonds

well i wish that i could have myself
a seven day weekend,
tired of sitting on the shelf
until the weekend
friday after school, i pick my baby up
we dance and party till sunday night
that's the only time
i get to hold my baby tight
I wish that there could be
a seven day weekend
I'm gonna make a plea
for a seven day weekend
and if it came about
life would be so slick
I'd run around and have a ball
and never go to school at all
monday, i saw the picture shows
tuesday, you know anything goes

wednesday, thursday, friday too
i party and twist the whole day through
all day i dream about
a seven day weekend
i sit and scheme and scheme and scheme
about a seven day weekend
the teacher calls my name
and i'm in another world
i'm just thinking about
a seven day weekend
yeah, yeah, yeah
(sax solo)
about, monday, i saw the picture shows
yeah, tuesday, yeah, anything goes
wednesday, thursday, friday too
i party and twist the whole day through
