

Rio Amazonas Pt. 2

Gary Wright

We left early this mornin'
And the day just turned out fine
On the Rio Amazonas
In the tropical sunshine

I needed this vacation
I was losin' it inside
I was slippin' into darkness
But I caught myself in time

Now the moon is slowly risin'
On a mystical sky

And I could stay with you forever
Stay with you forever
Stay with you forever here tonight

The Rio Amazonas
The sunshine and the rain
Were a perfect combination
To find myself again

I don't care where I'm goin'
It's so nice bein' here
Meeting you was just perfect
All my sorrow's disappeared

Fireflies are dancin'
With the stars in the sky

And I could stay with you forever
Stay with you forever
Stay with you forever here tonight

Yes, I could stay with you forever
Stay with you forever
Stay with you forever here tonight

Stay with you forever
Stay with you forever
Stay with you forever here tonight

Yes, I could stay with you forever
Stay with you forever
Stay with you forever here tonight

Yes, I could stay with you forever
Stay with you forever
Stay with you forever here tonight
