The Right Place

Gary Wright

Try to imagine how it just might be
You and I bein' together
I know, oh, you've been through a mistake
But I'm here tryin' to help you
You need lovin'

And you've come to the right place
Come to the right place
Come to the right place to find it

I know what you've been goin' through
You left your home and a heartache too
But I can see how it all could change
Somehow it'll get better
You need lovin'

And you've come to the right place
Come to the right place
Come to the right place to find it

You've been treated bad
Like a fool, I know
Your heart really must feel it
Love me, love me, can you let the past go
I'm here now to rely on
You need lovin'

And you've come to the right place
Come to the right place
Come to the right place to find it

Yes you've come to the right place
Come to the right place
Come to the right place to find it

Yes you've come to the right place
Come to the right place
Come to the right place to find it

Yes you've come to the right place
Come to the right place
Come to the right place to find it
