GASHI

Yo, you gotta see this man  
Come downstairs in the basement  
I want to show you something  
Yo, your new crib is sick bro  
You like it?  
I think it was owned by an old scientist or something  
The gu-the guy you said died?  
No he didn't die, I think I know where he went?  
What?  
Look check this machine out I found  
That's the one you been telling every body at school about?  
Yeah dude, just, come here, step inside I want you to see something  
Dude I'm not stepping inside  
Just step inside you'll be fine  
Okay  
Dude it's so fucking cold  
Oh shit, Danny?  
Danny?  
Danny open up  
Dan, stop playing games man  
(I didn't close the door)  
(I really don't know what's going on)  
Dude open the door man, wha-  
What's that red light man?  
(It's blinking 1984)  
What?  
(1984, Can you hear me?)  
Danny, I'm disappearing  
Danny?  
Danny! My hands  
Danny I'm disappearing  
Danny?  
Danny!  
Ah! Ah! Ah!
