GASHI

Yah yah yah
Yah yah yah
Yah yah yah

In car underwater with time to kill
Taking back I forgot to tell you this
Didn't care that you left and abandoned me
What hurts more is I was to die for you

I'm in car underwater with time to kill
Taking back I forgot to tell you this
I didn't care as you left and abandoned me
What hurts more is I was to die for you

You're all I ever wanted
You're all I ever needed
So tell me what to do now
That I want you back

You're all I ever wanted
You're all I ever needed
So tell me what to do now
That I want you back

When I'm saying
I listen her sad music
So I can feel the both side
Everything you do oh that's sad
And gets me mad
I'm trippin off the memories in the past
And lifestyle we had, just bring it back
She got me saying "Yalla Habibi"
"I need you to see me"
Quick with the front and I put you go down
Girl you know you ain't easy
She got me saying "Yalla Habibi"
"I need you to see me"
Quick with the front and I put you go down
Girl you know you ain't easy
You know

You're all I ever wanted
You're all I ever needed
So tell me what to do now
That I want you back

You're all I ever wanted
You're all I ever needed
So tell me what to do now
That I want you back

Na na na naaah
Na na na na na naaah
Yah yah yah

I'm honest
I need it

Your love is
The reason

I'm honest
I need it
Your love is
The reason
Girl come on
