

Cold

GASHI

When did we get so cold?
I guess we'll never know
It's like we're made of stone
This house is not a home
When did we get so cold?

Oh lord here come the rain
You look at me we're not the same
Standing here in our remains
But we can't seem to break away
Oh no
Oooh noo

And I'm not sure what to believe
'Cause there's some things you cannot see
You know who you used to be
Got no more tricks here up my sleeve
I don't
Oh no I don't

When did we get so cold?
I guess we'll never know
It's like we're made of stone
This house is not a home
When did we get so cold?

When did we get so cold?
I guess we'll never know
Together but alone
This house is not a home
When did we get so cold?

Our love has disappeared
Feel alone but you're right here
Can't repaint the pictures clear
Try for the kids but they're not here
No more
No more

And I'm not sure what to believe
'Cause there's some things you cannot see
You know who you used to be
Got no more tricks here up my sleeve
I don't
Oh no I don't

When did we get so cold?
I guess we'll never know
It's like we're made of stone
This house is not a home
When did we get so cold?

When did we get so cold?
I guess we'll never know
Together but alone
This house is not a home
When did we get so cold?

When did we get so cold?

When did we get so cold?
