

Darkside

GASHI

Don't take it all up on yourself
I know it's rough, I'm here for you, ah
I'm feeling a way about your taste
It's never great except for me, ah
Shaded away the fame it's fucked up
But think about the life you gave away
I haven't slept in days, you know I'm tired
I haven't slept in days when you're on top

What you know about my love life, love life
What you know about my dark nights, dark nights
You don't wanna see my dark side, dark side
I'm just looking for a love life

I told her come over to the dark-side of the moon
Tell me what you see
I'm taking the mask off please don't you run away
When you see the beast
You just want me all up in your room
Take your phone out, show them that we cool
'Cause you just want me all up in your room
Take your phone out, show them that we cool
When I get stuck in the club with all the fakes and snakes
I just wanna call a cab up with you
Half way to my house your phone is out you want the clout
Please don't you say that you care about me

What you know about my love life, love life
What you know about my dark nights, dark nights
You don't wanna see my dark side, dark side
I'm just looking for a love life
