

Distant

GASHI

Started to get sick of the stories
I canceled the wedding and got Ferraris
I keep on trying to move the mountains
I lost myself in the process
Tryna find my peace
Everything ain't that easy
Fuck all the money
'Cause I miss the old me

The devil has got me
I prayed that I get free
You're nothing without me
Just remember how you found me
Don't say you miss me
Just look how you did me
Girl, you got me trippin'
'Cause you never listen

You acting different
Now I treat you different
Girl, you got me drinking
I'm starting to get distant

You acting different
Now I treat you different
Girl, you got me drinking
I'm starting to get distant

Feeling so numb now
I'm about go out
I'm faded, I'm nauseous
If I crash, girl, you caused it

Something is different
You acting different
Don't get mad, I get distant
Don't get mad, I get distant

If I start dying
Please don't start crying
Tell my friends that you loved me
When I never meant nothing

Love ain't
What I thought it be
Never thought you'd get sick of me
You ain't the girl that you said you'd be
You changed and went and switched on me

There's a stranger in my house
Liquor is how I figured out
I keep drinking till I drown
I pray
I'm lost and I'm never found

Something is different
You acting different

Don't get mad, I get distant
I don't get mad, I get distant
