

Don't Forget Me

GASHI

I'm running like a nose bleed Dreams I Chase
Feel on a treadmill losing this race
Cause I'm running full speed ain't going no where in one place
Questioning my songs my beard my race?
Is it cause I'm bald? but my music still bangs!
Like a long spanish laugh all you see is "js"
Going broke blame it on my expensive taste
Behind a computer screen as I'm wasting my days
Looking at shit out of price range
I'm hungry like I swam all day feel ashamed pops birthday and I can't show f
ace
Cause I'm broke
No diamond no steak
From a plastic spoon is the way that I ate
No movie plate
But this a "poor-tray"
Started from the real bottom never lost faith
Motherfuckers saying

"If you make it don't forget me"
If you make it don't forget me

If you make it don't forget me
If you make it don't for get me me me me "

If I don't make it you gon forget me
If I don't make it you gon forget me!

If I don't make it you gon forget me
If I don't make it your gon forget me!

Sometimes I say fuck life!
Fuck hype fuck your jordans and fuck nikes!
Cause I've been working all day working all night
For this worthless check and this fuck price
And my homie got life on his 3rd strike
And I just want to pipe screaming fuck wife!
And my uncle died of cancer so I'm up tight
I pray to God for an answer hope he just might
Hope he just might!
Shine bright on me!
Oh lord if you hear me I'm tired of being a blind mouse for this cheese
Sometimes I feel like putting it to my dome and squeeze squeeze
Just want to leave
Cause I'm so stressed
Chasen these checks
Mom asking "how the fuck you gon make bread? when you can't even make your m
otherfuckin bed"
And they still saying

"If you make it don't forget me"
If you make it don't forget me

If you make it don't forget me
If you make it don't for get me me me me "

If I don't make it you gon forget me

If I don't make it you gon forget me!

If I don't make it you gon forget me
If I don't make it your gon forget me!

Slow it down for these mother fuckers just incase they don't know
I got by the name of GASHI and I spell it with a 4...
