

Drive Way

GASHI

Two lights, speeding with my top down
They ain't see us coming from a mile now
Everything behind me in the distance
Life still going and I stay down
Nights with my Glock, keep you safe now
Play with my life, that's a man down
Sorry, mom, I had to take these risks now
Swag like I never came through
Know I doubled up, duffle bag full of loot
I done been down but I never gave up
I know that you ridin', always showin' love

I've been runnin' for miles
Know what I'm about but you still looking for doubt
I'm always gone, but my heart on the driveway
Always gone, but my heart on the driveway
But I've been runnin' for miles
Know what I'm about but you still looking for doubt
I'm always gone, but my heart on the driveway
Always gone, but my heart on the driveway, yeah

We been laughin' since I can't remember
Now we don't even laugh anymore
All this cash got us weak, no more calls every week like before
I'll be out on the road 'til September
And I pray that you don't call on him
And I pray you don't cheat with someone that you meet at the party or
the gym, girl
You're drivin' me crazy, made a grown ass man cry
When I hit up your line, I pray that you never lie
Never listen to your friends 'cause they don't know what I'm 'bout
And I need you send me pictures when you up in the house
And I hope you don't find another man to replace my spot up on that couch, girl
And I hope I'm the only one in that mouth, girl, girl
Quickly tell me what you want
Tell me 'cause you're the only one I want
Only one on my mind, hmm
Things I just want to see
If you're complete without me

I've been runnin' for miles
Know what I'm about but you still looking for doubt
I'm always gone, but my heart on the driveway
Always gone, but my heart on the driveway
But I've been runnin' for miles
Know what I'm about but you still looking for doubt
I'm always gone, but my heart on the driveway
Always gone, but my heart on the driveway, yeah
