

# Full Moon

GASHI

There's a monster deep inside  
There's a monster on the rise  
You don't wanna see it alive  
You don't wanna you won't survive

There's so much things about me that you can't see  
There's so much things about me that you don't know

I come alive  
I come alive  
I come alive when its a full moon outside

I come alive  
I come alive  
I come alive when its a full moon outside

When it's a full moon outside  
When it's a full moon outside

I come alive  
I come alive  
I come alive when its a full moon outside

You can run  
You can't hide  
See the beast all in my eyes  
Hear the screams when I arrive  
Feel the pain when I bite

There's so many sides to people that you don't know  
Honesty saves time full moon the truth will show (Yeah, yeah)

(Yeah, yeah)  
I come alive  
I come alive  
I come alive when its a full moon outside

I come alive  
I come alive  
I come alive when its a full moon outside

I come alive  
I come alive  
I come alive when its a full moon outside
