

# Funeral Friends

GASHI

I'm in the case  
It's like a maze  
Come light my way

Sleeping days  
Awake at night  
I leave my grave  
I'm alive  
I see your face  
Begin to cry  
Say you miss me  
But that's a lie

Funeral full of fake best friends missing me  
I guess death makes it all different  
Don't forget I was that asshole  
Don't say you love me 'cause that's wrong

You never liked me last time you saw me  
You never really gave a fuck about me  
You need to let go

You never liked me last time you saw me  
You never really gave a fuck about me  
You need to let go

You never liked me  
You never liked me

You need to let go

You don't miss me tonight  
Wrote that caption for likes  
Post my pic for attention  
In hopes that your name they mention

Funeral full of fake best friends missing me  
I guess death makes it all different

Don't forget I was that asshole  
Don't say you love me 'cause that's wrong

You never liked me last time you saw me  
You never really gave a fuck about me  
You need to let go

You never liked me last time you saw me  
You never really gave a fuck about me  
You need to let go

You never liked me  
You never liked me  
You need to let go  
You need to just let go

The cribs all mine  
That whips all mine

Those lips all mine  
Those tits all mine

The cribs all mine  
That whips all mine  
Those lips all mine  
Those tits all mine

You can't forget me  
You can't forget me  
You can't forget me  
You can't forget me
