

Gloria

GASHI

Breathing out, slowly
I'm reaching out, just listen
Fuck the world, that is how I feel
That is how I feel
And you know that I'm living it up on my own
You never hittin my loan
Want you to know that I miss you
You thinkin about me at night girl
I just want to kiss you baby, that's how I feel
That's how I feel
And you know that I've been trippin, smoking, rolling all night
Easy to protect you when you scared at night
We were on a mission you done beat up my life
You got me drinking, slipping, I've been thinking 'bout you

Gloria
You let me down
I'm dancing by myself
Like nobody's around
And you pushed
You pushed me far away
Oh don't fight
To love another day

Oh I, popped another pill in this bitch
How we feel now motherfucker I'm lit
And I swear to God that I'm gonna die rich
I don't give a motherfuck, tell 'em all about it
Girl you know you used to text me you wanted
I picked you up in my ride
We would fuck till the morning
Until we see the sunrise
You said I'd never be good enough
Oh baby you know that I'm better than good enough
And good isn't good enough
There's a photo of you in my kitchen
It really got me reminiscing
Memories pointless like a broken pantone
You got me drinking, slipping, I've been thinking 'bout you

Gloria
You let me down
I'm dancing by myself
Like nobody's around
And you pushed
You pushed me far away
Oh don't fight
To love another day
