

Kill Me Now

GASHI

Fear what you can't be so you tear me down
Hate me now
Erase me now
Now I'm all you see, can you hear me now
Do you feel me now
Can you hear me out
I watched them switch on me and they threw me out
But they need me now
Cause I made it out

I've been down this road before
I watched them go close the door
See things that they'll never show
It's all fake thought I'd let you know
I do this shit for my en's
They're all praying for my end
We'll see who last in the end
No plan B, I'm going in
Love me, hate me, here we go
Honestly, don't care no more
Money turned my heart to stone
360 bitch, I'm so cold
Tryna find a way to cope
They don't love you when your broke
Ain't nobody call my phone
Now I don't pick up the-

Now I'm all you see, can you hear me now
Do you feel me now
Can you hear me out
Watched them switch on me and they threw me out
But they need me now
Cause I made it out
Opened up my heart and you cut it out
You shot me down
Come kill me now

Kill me now, just kill me now
Kill me now, just kill me now
Oh
Kill me now, just kill me now
Kill me now, just kill me now
Yeah
Kill me now, just kill me now
Oh
Kill me now, just kill me now
