

# Never Forget

GASHI

Yeah yeah (Hey, hey, hey)

I never forget

It was only a few years ago you tried to blame it

Girl you did me wrong, you shoulda know that I can't forget (no)

Phone is put on the side of the house we were fightin' because of a text

I can't forget, no (No)

Thought you was by my side, that was one big lie

I cannot forget (No)

I gotta leave it all behind, pretend that I'm fine (Yeah)

Throwin' cash tonight (Yeah), she gon' work for mind (Ah)

Please distract my mind and shake it to the side (Oh)

Fill up my appetite, she knows she does it right

Rich man poor choice tonight, she band aids on my lies

Yeah, I changed, I cannot stay the same

You love to just complain and never feel my pain

Left me out in the rain (Yeah), put my whole name to shame

You still to live in my vains, the high don't feel the same (No)

You love to play these games, push my button it's insane

You turned into a stain, washed up won't go away (Yeah)

Made me question my faith, almost blew out my brains

Jumped in front of a train, thank God that I was saved

I'll never forget, facing the life

Turnin' all red, face full of sweat (Woah)

Wishin' I'm dead

You playin' these games get the fuck out my head

I feel like a mess (Yeah)

I'm screaming, I'm thinkin' about the day you left (Yeah)

I caught them in bed

Girl, you shoulda know I never forget (No)

You push me til this side and left me on the curb

You shoulda know that I would never and ever forget (No)

You tried to do me wrong at the lowest part of my life

Girl that's something that I would never forget

No lie, I miss your smile, your lips

Your house, we laughed, we cried, what changed?

Your mind, to leave my side

I swear I tried, I ran out of town

Watched your leave, your leave

Kill me, kill me

No, no, no, no (No)

I'll never forget, night that you left

Caused me this stress, wasn't the best

Sick of the lies wasn't the sex

One 69, ain't talkin about head

It's a two way, show me respect

Ain't about the bread, ain't about no cheque

All of the time had to invest

Did everything I coulda done

You still left me out here for days

Miss you beside me

But now all I see

You tried to drown me (Drown me, baby)

Get the fuck above me (Wouh)

You tried to claw me (Wouh)

Tried to call my phone and just forget (Prrr, hello)

I swear to God and everything I love I always try to just forget (Forget it)

I was scared to be alone but baby I no longer feel afraid (No)  
Just get up and go outside and face my fears no longer hard  
I just go flex (Yeah)  
I swear they always care when it's too late  
And they find out someone is dead (Oh oh)  
And I'ma found someone who love me  
As much as I love countin' this bread (Bread)  
That's a fact (I'll never forget)  
Just know (I'll never forget)  
Ain't nothing but the truth (I'll never forget)  
We know what it is, we see the same shit, anytime  
We about this bitch
