GASHI

You're so damaged, it's so clear to see  
All the money in the world don't make you happy  
When you're alone  
You're so scared, you pretend to be brave  
Hide behind the walls you build on your own  
Let 'em all fall

It's in your eyes, you're hurting, hurting  
You're playing perfect  
So just stop baby, you got me fucked up  
Yeah girl, you got me fucked up  
I might go speedin', speedin'  
I might start drinking and smoking  
I can't feel nothing  
Show me what's real  
Baby, just let me feel your love

Let me go dive in your ocean  
All the way down  
Let me feel your love  
Let me just drown in your ocean  
All the way down

Times I get lonely so late at night  
Driving down cold water searching  
In hopes that I find you  
I hate how they hide you  
You hate when I watch you smoke cigarettes  
Don't like complacency but want me lazy around you  
Watch TV while I watch you

It's in your eyes, you're hurting, hurting  
You're playing perfect  
So just stop baby, you got me fucked up  
Yeah girl, you got me fucked up  
I might go speedin', speedin'  
I might start drinking and smoking  
I can't feel nothing  
Show me what's real  
Baby, just let me feel your love

(Let me feel it)  
Let me go dive in your ocean  
(Let me feel it)  
All the way down  
(All the way down)  
Let me feel your love  
(Let me feel it)  
Let me just drown in your ocean  
(Let me feel it)  
All the way down  
(All the way down)

Ocean  
I'm on my way down  
All the way, all the way, all the way, all the way down  
(Let me feel it)

Ocean

I'm on my way down

(Let me feel it)

All the way, all the way, all the way, all the way down

(Let me feel it)

Ocean

I'm on my way down

(Let me feel it)

All the way, all the way, all the way, all the way down

(Let me feel it)

Ocean

I'm on my way down

(Let me feel it)

All the way, all the way, all the way, all the way down

(Let me feel it)
