So Many Love Me (Present Time)

GASHI

Sitting in my room I'm naked bumping Cobain
I can't feel a thing, I guess it's just the cocaine
Notifications infrared, light in my brain
I can't go to bed until this caption gets changed
Dealing with this digital drug don't feel the same
All this love, but I just wanna focus on hate

So many love me
I don't care who don't
Bitch, you know you wanna love me
This is what you want
You can't take this smoke, love me
I don't care who don't
Bitch, you know you wanna love me
This ain't what you want
You can't take this smoke

Staying up all night, watching everyone's life
Staying up all night, chasing comments and likes
Wifi the new high
My last pic is so fly
Just in case I go die

So many love me
I don't care who don't
Bitch, you know you wanna love me
This ain't what you want
You can't take this smoke, love me
I don't care who don't
Bitch, you know you wanna love me
This ain't what you want
You can't take this smoke

You would never be nothing like me
You would never be nothing like me
You would never be nothing like me
You would never be nothing like me
You would never be nothing like me
You would never be nothing like me
You would never be nothing like me
You would never be nothing like me
