

That's Mine

GASHI

That's mine
That's my baby

You pick up
Never let me down
When I'm
Stressed out help me calm down
When I mess up never talk down on me
You never switching up or playing both sides when I'm
Feeling dead you bring me alive and when ya
Feel the same just know that you still got me

Love me back say you want me too
And you know
Even in my bottom dollar girl I'll never leave you
Tell em how I feel never hold back
Tell the world that its real so they know that
And if I lose the world I got my girl cause that's my ride

That's my baby
That's my love
She drive me crazy
Cause that's my rock
That's my baby
That's my love
She drive me crazy yea yea yea

And I ain't ever gone stop in it till the day I die
And when you wanna die you know ima be the light
In it till its over but its so far from over (yah yah)
Still shine when the sun down
Ima push it till the limits cause I know we can't be finished nooo

Love me back say you want me too
And you know
Even in my bottom dollar girl I'll never leave you
Tell em how I feel never hold back
Tell the world that its real so they know that
And if I lose the world I got my girl cause that's my ride

That's my baby
That's my love
She drive me crazy
Cause that's my rock
That's my baby
That's my love
She drive me crazy yea yea yea
