

# Tears Fall From The Sky

Gatecreeper

Sunlight never arrives  
Permanent darkness beckons me  
A velvet tragedy  
Screams of agony ring through the night

Swallowed by the tide  
Lost in the fog  
Storm cloud over oceans of grief  
Dragged down to the depths, like a stone  
Tears fall from the sky  
Tears fall from the sky

Swallowed by the tide  
Lost in the fog  
Storm cloud over oceans of grief  
Dragged down to the depths, like a stone  
Tears fall from the sky  
Tears fall from the sky
