

## Locked Out

### Gates To Hell

Distant stares  
Looks of dissociation  
The mind has turned on you

Locked out from your brain  
Unresponsive in any way  
A loss of all control  
A wretched spell  
Takes over you  
Left in a state of anguish  
Locked in a trance

Moments lapse  
Not sure what is real  
Failing to seize control

Will you make it this time?  
Will you make it this time?  
A darkness takes over you

Will this be the last time?
