

For All My Days

Gateway Worship

There in the valley
I have all that I need
When fear is surrounding
Your love guarding me

Goodness and mercy have never forsaken me
You've gone before me, You scattered my enemies

I will rest in the hope of Your promise
You are good and Your love it will never change
No, You never change
I am found in the midst of Your presence
Where Your grace will pursue me for all my days
For all my days
Covered by Your shadow
In Your arms I am free
Won't worry about tomorrow
Your light is leading me

Goodness and mercy have never forsaken me
You've gone before me, You scattered my enemies

I will rest in the hope of Your promise
You are good and Your love it will never change
No, You never change

I am found in the midst of Your presence
Where Your grace will pursue me for all my days
For all my days

Because of who You are
Because of what You've done
Death has lost its grip on me
I won't fear the night
You have brought me life
By Your blood, I am redeemed
Because of who You are
Because of what You've done
Death has lost its grip on me
I won't fear the night
You have brought me life
By Your blood, I am redeemed
I will rest in the hope of Your promise
You are good and Your love it will never change
No, You never change
I am found in the midst of Your presence
Where Your grace will pursue me for all my days
For all my days...

For all my days
For all my days
For all my days
