

## Love Has Found Us

Gateway Worship

Where can we run?  
Where can we hide?  
Is there a place that we can go  
Where you cannot find us?

You're there when we fall  
There when we rise  
Nothing is hidden from your face  
You know every breath we take

Your love has found us  
Your love has found us  
We are yours forever  
Your love has found us  
It's all around us  
Holding us together

Nothing on earth  
Above or below  
Nothing in all the universe  
Can take us from your love

You came to us  
Made us your own  
You have redeemed us from the fall  
You paid the ransom once for all

Your love has found us  
Your love has found us  
We are yours forever  
Your love has found us  
It's all around us  
Holding us together

We will sing because your love has found us  
Even in the darkest night  
We sing because your love has set us free
