

Open the Heavens

Gateway Worship

Our lives, our hearts, our hands
We're reaching out to see You move again
We can hardly wait, come flood this place
We're ready now, it's all about to change
Let Your kingdom come, let Your will be done
Let Your fire fall, let Your fire fall

Open the heavens
Pour Your Spirit out on us
Unleash Your presence
Jesus come alive in us
Open the heavens

This time, this place, it's Yours
Unlock the gates and open up the doors
Let Your kingdom come, let Your will be done
Let Your fire fall, let Your fire fall

Open the heavens
Pour Your Spirit out on us

Unleash Your presence
Jesus come alive in us
Open the heavens

Darkness trembles, mountains shake
What was dead now comes awake
Every captive breaking free
Right now, right now, right now
Darkness trembles, mountains shake
What was dead now comes awake
Every captive breaking free
Right now, right now, right now

Open the heavens
Pour Your Spirit out on us
Unleash Your presence
Jesus come alive in us
Open the heavens...

Open the heavens
Open the heavens
