

# Walls

## Gateway Worship

We are daughters and sons  
Singing as one, we've got a hope now  
Walls have tried to divide  
But nothing can hide, the power that we've found  
You are walking with us  
And all of the walls are turning to dust  
They are falling down

Sing praise, we praise  
We fill the skies with song from our hearts  
Sing praise, we praise  
'Til enemies know faithful you are, oh God

High, we lift up your name  
Put darkness in chains  
You go before us  
Love is swallowing fear  
And all of the walls will soon disappear  
They are crumbling down

Bridge  
Walls are coming down  
Walls are coming down  
Oh, oh, oh, oh
