

Whatever You Want

Gateway Worship

Just one king and just one crown
Could rule and reign here till the darkness has bowed down
So hear your people as we pray
And humbly seek your face, we seek your face

Whatever you want
Whatever you ask
Our lives are yours
We gladly lay them in your hands
Set revival free
In our surrendering
Come start a fire and let it burn
We're crying out till heaven fills the earth oh oh oh

Just one love and just one hope
Could unify this great divide and make us whole
A royal priesthood for your fame
A people called by your great name, by your great name

Whatever you want
Whatever you ask
Our lives are yours
We gladly lay them in your hands
Set revival free
In our surrendering
Come start a fire and let it burn
We're crying out till heaven fills the earth oh oh oh

Here as one we're unified
To see your glory in our lives
For your kingdom, for your name
Holy spirit have your way

Here as one we're unified
To see your glory in our lives
For your kingdom, for your name
Holy spirit have your way
Holy spirit have your way

Whatever you want
Whatever you ask
Our lives are yours
We gladly lay them in your hands
Set revival free
In our surrendering
Come start a fire and let it burn
We're crying out till heaven fills the earth oh oh oh
