

Jagged pill I'm your mother  
He-man is your father  
Nuclear heads splits open in the neon light  
Some just lose sight  
When kept away from fire

Call me loveless, I'm your mother  
Call me sick but I am your father

Heal the mad men  
So they function in the wheel  
Tell it, tell it like you see it  
Heal the mad men  
The world is yours to peel

Will tore us asunder  
Sun is dripping and we float  
Yet we're no worse off  
Than a beating change of heart  
For we adapt  
Again and again and again

Call me loveless, I'm your mother  
Call me sick but I am your father
