Silent mistress, come with sleep  
Take us below the six feet deep  
Hibernation  
Hibernation

Violent mistress  
Shake our bodies  
Salt minded feet  
Rulers love call  
Cuts through meat

In a tired sun  
Before either of any begun  
We waded out  
In lilac water to follow RA

Dawn begun with your flesh  
Now it's bound to your success

In a tired sun  
Before either of any begun  
We waded out  
In lilac water to follow RA
