

# A Cigarette

Gavin Adcock

Caffeine Nicotine  
Fueling all my crazy dreams and  
I've had a couple times I lied and said I was fine  
But I wish I was laying in a queen sized bed with you  
But right now a Cigarette will do

A quick hug a goodbye  
Don't let em fall from your eyes yeah  
Just do what you can tryna love an outlaw man  
Can't stay don't wanna leave  
Workin to give you all you need  
And I wish I was holdin your hand and that's the truth  
But right now a Cigarette will do

If I die tonight and I don't see the morning light yeah  
I'd thank the lord greatly for just letting you be my baby  
Every single day feels so damn new  
And girl there ain't no doubt that I love you

Caffeine Nicotine  
Fueling all my crazy dreams and  
I've had a couple times I lit one up and said I was fine  
But I wish I was laying in a queen sized bed with you  
But right now a Cigarette will do  
But a Cigarette can't fill the void of you
