

# Don't Like Leavin' You

Gavin Adcock

There's something about you  
And your heavenly smile  
It gets me down when I hadn't seen it in a while  
Looking after me even though I'm wild  
Well, I've been thanking the good Lord for bringing you into my  
life

Don't like leaving you, baby  
I like having you around  
When you sit in my passenger seat, it just makes me smile  
Even tomorrow, I'll have you around  
I love you like crazy but there's something 'bout you in my arm  
s right now

It ain't a short drive  
To get to your town  
But it's worth passing red lights and stores to love what I fou  
nd  
I'll pull in on two wheels  
When I get to your house  
You're standing in the drive, I ain't waiting on you to come ou  
t

Don't like leaving you baby  
I like having you around  
When you sit in my passenger seat, it just makes me smile  
Even tomorrow, I'll have you around  
I love you like crazy but there's something 'bout you in my arm  
s right now

And all that this highway splits, darling, I'll admit  
That I've never felt so tamed

Don't like leaving you, baby  
I like having you around  
When you sit in my passenger seat, it just makes me smile  
Even tomorrow, when I'll have you around  
I love you like crazy but there's something 'bout you in my arm  
s right now
